## Bio

Margie moved into Hoyt Hall in 1970 and was BSC's first female maintenance manager and first woman hired for the summer Central Maintenance crew. She was hired in 1972 as a part-time clerk compiling the BSC's weekly decentralization reports and was hired after her graduation to do that as well as CK's inventory control and Accounts Payable bookkeeping. When the houses wanted to cook all meals on site in 1980, Margie was directed to convert Central Kitchen into a warehousing operation and to ensure that the houses were adequately supplied with commercial equipment for the Home Cooking Program. What was planned as a year-long conversion, happened in one semester. In 1988, Margie was promoted to BSC Accountant and held that position until 2013. Margie is a charter member of the BSCAA and has been its treasurer off and on since 1996. She is also an inductee in NASCO's Hall of Fame as an Educator. Somewhere along the way she married Gordon Greene, who started BSC's Central Maintenance department. Their kids, Jennifer and Jason, grew up doing workshifts.

## Field Notes

Margie's interview was conducted at Convent, 1601 Allston Way, Berkeley, CA and videotaped by Fox Nakai.
